

BRIDGE DEMOLITION PROVO CENTER STREET CLOSURE

As part of the Utah County Corridor Expansion (I-15 CORE), crews are rebuilding the Provo Center Street interchange. Both directions of I-15 have been shifted over to the east side of the freeway and crews will demolish the existing southbound bridge over Provo Center Street. This activity will require closing Provo Center Street underneath the bridge.

Demolition Schedule and Travel Restrictions

Beginning Saturday, Oct. 16, Provo Center Street will be closed underneath I-15, from 10 p.m. to 11:30 a.m. Sunday, Oct. 17. Local traffic can use 820 North or 600 South to Geneva Road or 900 West as alternate routes.

From Downtown Provo

Motorists can use Provo Center Street to connect to I-15 northbound and can use University Avenue to access southbound I-15.

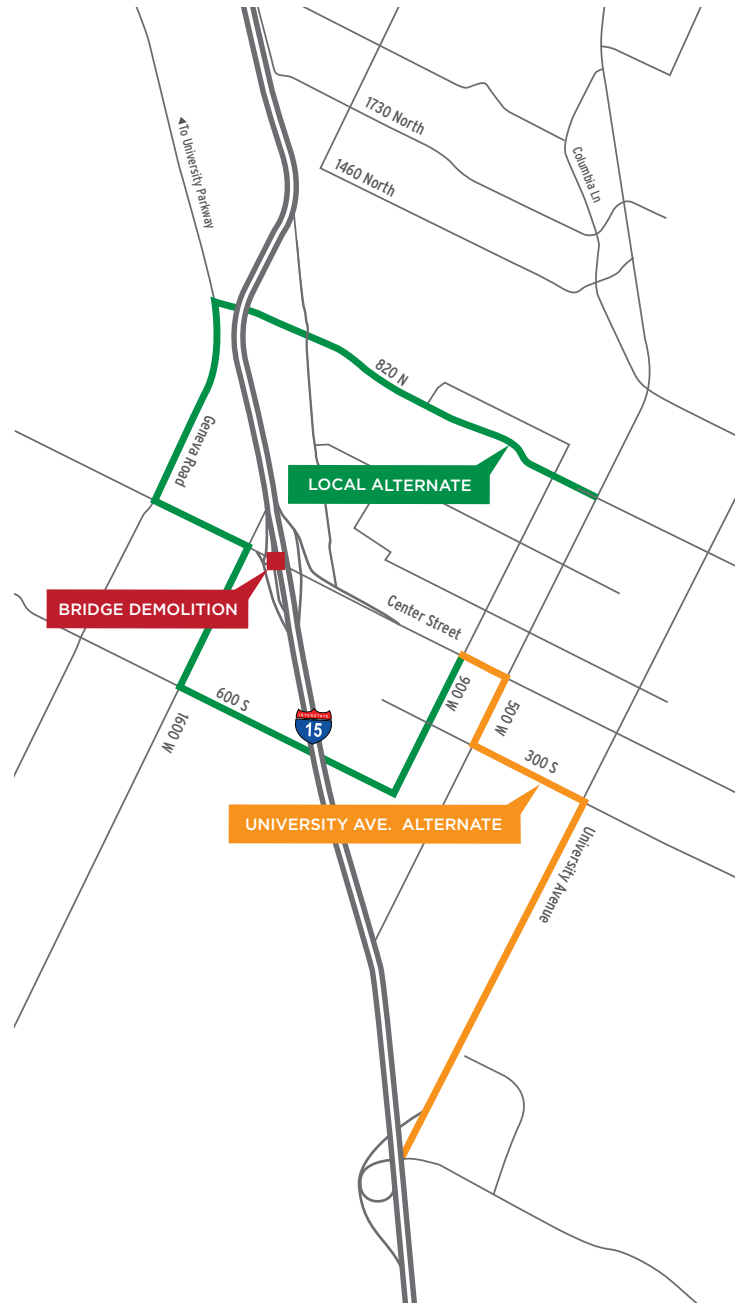

From Geneva Road

Motorists can use Provo Center Street to connect to I-15 southbound, and can use University Parkway or University Avenue to connect to northbound I-15.

From I-15

The off-ramps will remain open, but east-west access under the freeway is closed. Northbound motorists can use University Avenue to Center Street to access areas west of Geneva Road. Southbound motorists can use Geneva Road to 600 South or 820 North to access downtown Provo.

Area residents should anticipate nighttime noise and possible vibration during this work. We recognize this work will be inconvenient and will do what we can to minimize any impact. For more information, visit udot.utah.gov/i15core or subscribe to weekly email updates.

Center Street Alternates

Center Street will also be closed between 900 West and Geneva Road in Provo. Local drivers traveling east and west can use 820 North or 600 South in Provo as alternate routes.
